CAREER OBJECTIVE

Computer Science Engineering student with hands-on experience in Python Automation, Software Testing, Full-Stack Development, and Mobile Application Development. Completed a 6-month internship at Safran, developing automation tools and testing solutions. Proficient in Python, Java, React Native, Flask, SQL, and REST APIs. Seeking a Software Engineer or Automation Engineer role to contribute technical expertise and problem-solving skills.

EDUCATION

- SSLC, Govt. High School Chikkati | 84.64% | 2019.
- Diploma in Computer Science & Engineering, JSS Polytechnic, Nanjangud | CGPA: 7.12 | 2023.
- B.E. in Computer Science Engineering, RVITM, Bengaluru | CGPA: 7.64 | Graduation: 2026).

PROJECTS

- **CSE Chatbot (Python, Flask, 2024)**
 - Description: Developed a chatbot for the CSE department to provide instant responses to student queries and academic information.
 - Role: Implemented NLP-based query processing, integrated the backend using Flask, and designed a user-friendly interface.
 - Outcome: Automated FAQ handling, improving response time and accessibility while gaining hands-on experience in chatbot development and Flask integration.
- **Library Management System (Java, MySQL, MongoDB, 2024)**
 - Description: Built a system to handle book issuance, returns, fine calculation, and student records.
 - Role: Designed database schema implemented core functions (issue/return/fine), and developed Java-based UI.
 - Outcome: Streamlined library operations; learned database connectivity and CRUD operations.
- **Indoor Navigation Application (React Native, Node.js, PostgreSQL, 2025)**
 - Description: Creating a cross-platform indoor navigation app with 3D floor plans, multilingual voice guidance, and AR support.
 - Role: Developing mobile frontends using React Native, designing backend APIs with Node.js, and integrating 3D/AR navigation.
 - Outcome: Expected to provide real-time indoor navigation; gaining experience in AR, mobile development, and full-stack integration.
- **License Dashboard Automation Tool (Python, HTML, CSS, Flask, Java Script 2026)**
 - Description: Developed a License Dashboard tool to monitor, manage, and track software license details efficiently during testing and validation processes.
 - Role: Designed and developed the tool using Python automation scripts to verify license data, identify duplicate entries, validate checklists, and generate accurate reports for testing activities.
 - Outcome: Improved the efficiency of license tracking and validation processes by automating dashboard monitoring, duplicate detection, and checklist verification, while gaining strong experience in Python automation and testing workflows.

INTERNSHIP (Software Intern | Safran Engineering Services India Pvt. Ltd. | Jan 2026 – Jun 2026)

- **Description:** Completed a 6-month internship focused on Automation Testing and Python tool development.
- Worked on real-time testing, validation, and process automation projects to support software quality and engineering operations.
- **Role:** Developed Python-based automation tools for license management, checklist validation, duplicate variable detection, and string matching.
- Assisted in automation testing, debugging, validation, and software quality assurance activities.
- **Outcome:** Reduced manual effort through automated reporting, duplicate detection, and checklist verification tools.
- Gained hands-on experience in Python automation, software testing, debugging, validation, and industry-standard development workflows.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C/C++.
- **Web Development:** HTML, CSS, Java Script.
- **UI/UX & Editing:** Adobe XD, Figma.
- **Frameworks:** React.js, Node.js, React Native, Flask.
- **Database:** MySQL, MongoDB, PostgreSQL.
- **Tools/ Platforms:** Git ,GitHub ,Vscode , PyCharm, Unity, Android Studio.
- **Concepts:** Data Structures, OOP, Software Testing, Automation Testing, SDLC, Agile Methodology

ACHIEVEMENTS

- Completed 6-month internship at Safran Engineering Services.
- Developed multiple automation tools for testing and validation workflows.
- Built full-stack, mobile, and automation-based software projects.

CERTIFICATIONS

- Software Engineering & Agile, Python Programming (Infosys Springboard).
- Computer Networking (CISCO), Java Programming (Great Learning).

INTERESTS & HOBBIES

- Cricket and Outdoor Sports
- Reading Books and Technology Articles
- Listening to Music
- Playing Carrom
- Learning New Technologies

LANGUAGES KNOWN

KANNADA – (Native Proficiency).

ENGLISH – (Professional Working Proficiency).

HINDI – (Intermediate).
